

(Zoom information at end)

Midcoast Broadband Coalition Information:

Here are a few links which will help people get a sense of what is happening in Maine and around the nation in regards to connecting towns and getting them improved internet service:

Downeast Broadband

<https://downeastbroadband.com/>

A success story in Maine. Up and running.

Katahdin Broadband

<https://katahdinbroadband.com/>

In the RFP and build process right now. Their 2 "What's Your Thing?" home page videos do a swell job of "The Why," giving people a sense of what broadband is about and why it is important to our communities and the region.

Midcoast Internet

www.midcoastinternet.com

Lots of articles for learning and an outline of the Midcoast regional project. Our coalition brings together towns throughout Knox and Waldo Counties. And we are on track to establish the Midcoast Internet regional utility after the June 8th vote.

and an additional video from
Sertex

<https://www.youtube.com/watch?v=vjCzTvkuCfY>

Sertex does the engineering and building of fiber optic networks. Their video does a fine job with a general overview of fiber optic networks and their benefits. An intro that provides context.
